From Curious to Confident

Understand · Explore · Apply · Grow

A Powerful Session on AI — For Today. For Tomorrow. For You.

About the Speaker

Abhishek Jain

Chief Development Officer, Airlinq

17+

Years of Experience

4

Continents Covered

100M+

Connected Devices

- ✓ 17+ years in IoT, Connected Cars & AI-driven platforms
- ✓ Led engineering for next-generation connected mobility with AI & ML at Airlinq
- ✓ Built enterprise systems for GM, Daimler, Reliance Jio, Maxis, STC & A1
- ✓ Bridges the gap between deep tech and business strategy
- ✓ Passionate about building smart, scalable and impactful solutions

Who Is This Session For?

Open to everyone — zero tech background needed!

Students

Learn. Explore.
Get Future Ready.

Homemakers

Learn New Skills.
Empower Yourself.

Professionals

Work Smarter.
Stay Ahead.

Business Persons

Innovate. Automate.
Grow Faster.

For Anyone 15+ — To Any Age!

What is AI, Really?

Plain language — no tech jargon

Common Myths

AI is only for tech experts

AI will replace all jobs

AI is a robot from sci-fi movies

AI is too complex to use

You need to code to use AI

The Reality

Anyone can use AI tools today — for free

AI assists humans; it creates new opportunities

AI is software that learns from data

Most AI tools are as easy as WhatsApp

No coding needed — just type in plain language

"AI is not magic. It's a very fast, very helpful assistant."

QUICK POLL — Raise Your Hand!

Which AI tool have you already heard of?

ChatGPT

🙋 Raise your hand!

Google Gemini

🙋 Raise your hand!

Gamma

🙋 Raise your hand!

None Yet!

🙋 Raise your hand!

No wrong answers — this session will make ALL of these tools easy for you!

How to Write a Proper Prompt

The better your prompt, the smarter AI responds!

P

Person / Role

Tell AI who to be
"Act as a financial advisor"

R

Request

State your task clearly
"Write a 5-line email"

O

Output Format

Specify the format
"Give me a bullet list"

M

More Context

Add background details
"For a 10-year-old audience"

P

Polish/Tone

Set the style/tone
"Keep it simple & friendly"

T

Target Audience

Who will read/use it?
"My team of 5 sales reps"

Example Prompts – Please open respective apps and try

Real prompts for real people — copy, tweak, and use

STUDENT • Class 5 Study Helper

"Act as a friendly Class 5 science teacher. Explain the water cycle to me in simple words, with a short story, 5 key points, and 3 questions to test myself. Keep it fun and use easy examples."

HOMEMAKER • Kid's Birthday Invitation

"Act as a creative party planner. Write a cheerful birthday invitation for my daughter Aanya turning 7, with a unicorn theme. Include date (Saturday 5 PM), venue (our home), dress code, and a fun one-line message. Keep it warm and friendly."

BUSINESS OWNER • Expense Sheet Analysis

"Act as my finance analyst. Here is my monthly expense ledger [paste data]. Find the top 3 expense categories, flag anything unusual vs last month, and suggest 2 areas where I can cut costs. Give me a bullet summary I can share with my partner."

BUSINESS OWNER • MOU / Client Agreement Review

"Act as my contract advisor. Read this MOU from my client [paste text]. Summarize key terms in plain English, highlight risky or one-sided clauses, list missing protections (payment terms, IP, termination), and suggest 3 changes I should negotiate before signing."

Tip: Mix and match P-R-O-M-P-T parts — start simple, then add context and tone as needed.

QUIZ TIME!

Good Prompt or Bad Prompt? — Vote before we reveal!

✗ BAD

"Write something about marketing"

✓ GOOD

"Write a 3-line Instagram caption for a homemaker who sells homemade pickles, in a friendly tone"

✗ BAD

"Tell me about AI"

✓ GOOD

"Explain AI to a 15-year-old in 5 simple bullet points with real-life examples"

✗ BAD

"Make a presentation"

✓ GOOD

"Create a 5-slide Gamma presentation on saving money at home, for a middle-class family audience"

Rule: Be SPECIFIC. Give CONTEXT. State the FORMAT. → AI gives 10x better results!

Free AI Tools — Start Here Today!

100% free · No credit card · Works in your browser

ChatGPT (Free)

Most Popular

by OpenAI

Ask anything, write emails, get instant answers, brainstorm ideas

Google Gemini

Google-Powered

by Google

Search smarter, summarize articles, translate languages, create content

Gamma (Free)

Best for PPTs

by Gamma.app

Create stunning presentations & documents in seconds — just type a topic!

Canva AI

Best for Design

by Canva

Design posters, invitations & social media posts using AI — drag & drop easy

Google NotebookLM

Best for Learning

by Google

Upload notes or textbooks and chat with them — AI explains everything

Otter.ai (Free)

Best for Notes

by Otter

Records and transcribes meetings & voice notes automatically

Paid / Premium AI Tools — Worth the Upgrade?

When free isn't enough — power up!

ChatGPT Plus

~\$20/mo

Best for: Power users & professionals

Advanced reasoning, image generation, GPT-4o, faster responses & plugins

Gamma Pro

~\$10/mo

Best for: Presenters & teams

More templates, team collaboration, custom branding, export to PowerPoint

Perplexity Pro

~\$20/mo

Best for: Researchers & analysts

Deep AI-powered search with citations, academic sources & longer answers

Canva Pro

~\$13/mo

Best for: Designers & marketers

Brand kits, background remover, 100M+ assets, AI magic tools & team sharing

Notion AI

~\$8/mo

Best for: Professionals & founders

AI inside your workspace — summarize notes, write docs, plan projects

Claude Code

~\$20/mo

Best for: Engineering & technical teams

Agentic coding assistant that ships features, fixes bugs & automates dev workflows

Free vs Paid — Should You Pay?

A simple decision framework for beginners

Start with FREE

All the tools shown earlier have powerful free tiers. Master the free version first before spending anything.

Use it for 30 days

Use the free version daily for a month. Notice where it limits you — that's your signal.

Apply the ROI Test

Ask yourself: "Does this AI save me 1 hour a day?" If yes — it pays for itself. If no — stay free.

Upgrade only if...

You hit a wall every day, need team features, or it directly helps you earn / save money.

"Most people get 80% of what they need from free tools. Start free, grow smart."

AI Tools for Students

Your AI tutor is available 24/7 — completely free

ChatGPT Voice (Supports multiple language)

FREE

Talk to AI like a tutor — ask it to explain any subject out loud

Grammarly AI

FREE

Write better essays and assignments — checks grammar, tone & clarity

Gamma (Free)

FREE

Create a stunning presentation for school in under 5 minutes

Google NotebookLM

FREE

Upload your notes or textbook chapters and ask questions about them

Photomath

FREE

Point your phone camera at a math problem — AI solves it step by step

Quizlet AI

FREE

Turn your notes into flashcards and practice tests automatically

AI Tools for Homemakers

Run your home smarter — no tech degree needed

ChatGPT (Free)

Plan weekly meals, manage a household budget, get recipe ideas for any occasion

Canva AI (Free)

Design beautiful cards, wedding invitations & social posts in minutes

ChatGPT Voice

Ask cooking questions, get child education tips, practice a new language by talking

Google Gemini

Translate languages, get quick health info, find local services — all by typing

Pinterest AI

Snap a photo to find recipes, home decor & kids' craft ideas instantly

Google Lens

Point your camera at any plant, product or text — AI identifies it instantly

AI Tools for Professionals

Work smarter. Deliver faster. Stay ahead of the curve.

Microsoft Copilot

PAID

Automates emails in Outlook, builds Excel formulas, writes Word documents — built into Office 365

Gamma

FREE

Turn your notes into a complete client presentation in under 2 minutes

Grammarly AI

FREE

Ensure every email and report is professional, clear and error-free

ChatGPT

FREE

Draft proposals, research topics, summarize long reports, prep for meetings in seconds

Notion AI

PAID

AI inside your project workspace — meeting notes, action items, project plans

Otter.ai

FREE

Auto-transcribes meetings and highlights action items — no more manual notes

AI Tools for Founders & Product Marketing

From idea to pitch — AI compresses weeks of work into hours

Napkin AI / Pomelli

FREE

Turn plain text into stunning product marketing visuals, infographics & diagrams instantly

ChatGPT

FREE

Market research, go-to-market strategy, competitive analysis & compelling copy writing

DALL-E / Ideogram

PAID

Generate brand imagery, concept visuals, and ad creatives without a graphic designer

Gamma (Free)

FREE

Build investor pitch decks and product one-pagers from bullet points in minutes

Perplexity AI

FREE

Real-time competitor research with citations — better than a Google search for business intel

Notion AI

PAID

Build your entire company wiki, product roadmap, and investor FAQ with AI assistance

AI is Not Just the Future — It's Your Superpower Today!

- ✓ Anyone can use AI — it's simpler than you think
 - ✓ Start FREE — ChatGPT, Gemini & Gamma cost nothing
 - ✓ AI saves you time at home, at work & in learning
 - ✓ No coding or tech background required
-

Be Curious. Be Confident. Be Limitless.

Organised by SPF Jaipur Beawar Anchal Team & Samta Yuva Sangh, Jaipur

Learn Today · Apply Tomorrow · Lead the Future

Demo: Gamma — AI Presentations in Minutes

Real example: A homemaker wants to pitch her pickle business to a local store

✗ BEFORE AI

- 🕒 3–4 hours making slides manually in PowerPoint
- 😞 Struggled with design & layout
- 📝 No idea what content to include
- 🎨 Couldn't afford a graphic designer
- 🤖 Presentation looked unprofessional
- ❗ Felt too hard — gave up twice

AI

✓ AFTER GAMMA AI

- ⚡ Full presentation ready in under 3 minutes
- 🎨 Beautiful design — auto-generated
- 📋 AI suggested all the right content sections
- 💰 100% FREE — no designer needed
- 🏆 Professional-looking slides instantly
- 😊 Just typed one sentence — Gamma did the rest!

💬 Prompt used in Gamma: "Create a 5-slide presentation for selling homemade pickles to a local grocery store"

Demo: Google NotebookLM — Learn Smarter, Not Harder

Real example: A student preparing for a history exam with 80 pages of notes

✗ BEFORE NotebookLM

-  Read 80 pages of notes manually
-  Spent 4–5 hours just to find key points
-  Lost focus halfway through reading
-  Couldn't identify what's important to study
-  Made handwritten summaries — took all day
-  Still felt unprepared before the exam

✓ AFTER NotebookLM

-  Upload PDF notes — AI reads it in seconds
-  Ask: "What are the 5 most important topics?"
-  AI generates instant summaries & flashcards
-  Listen to an AI podcast of your own notes!
-  "Quiz me on Chapter 3" — practice questions ready
-  Exam-ready in 30 minutes instead of 5 hours

 **Prompt used in NotebookLM:** "Summarise this chapter in 10 points. Then create 5 practice questions for my exam."

Demo: Google Gemini — Product Marketing Made Easy

Real example: A founder launching a food delivery app for Tier-2 cities

✗ BEFORE Gemini

- 💰 Hired a copywriter for ₹8,000–₹20,000
- 📅 Waited 1 week for ad copy & taglines
- 🔄 3–4 revision rounds, still not satisfied
- 📉 No idea how to research target audience
- 😞 Social media posts felt generic & flat
- 🔍 Competitor research took days of Googling

AI

✓ AFTER Google Gemini

- ⚡ 5 tagline options generated in 10 seconds
- 🎯 Instagram captions for your product — instant
- 🔍 Full competitor analysis in under 2 minutes
- 👤 AI defines your target audience with personas
- 📅 30-day social media content calendar — free!
- 💰 ₹0 cost — Google Gemini is completely FREE

💬 Prompt used in Gemini: "Write 5 punchy taglines for a food delivery app targeting working women in Tier-2 Indian cities."

Demo: Pomelli — AI Marketing from Just a URL

Google Labs experiment — paste a website, get a brand kit + campaign in minutes

⚙️ HOW IT WORKS

- Paste your business website URL
- AI scans your brand, tone & products
- Generates a brand kit (logo, colors, fonts)
- Drafts on-brand ad & social campaigns
- Edit, regenerate, or accept with one click
- Export assets ready to publish

WHAT IT HELPS YOU DO

- Launch a campaign in minutes, not weeks
- Skip designer & copywriter wait times
- Stay consistent across every channel
- Test 10+ creative variations instantly
- Save thousands on agency retainers
- Perfect for SMBs without a marketing team

 Try it free at labs.google/pomelli — no credit card, just paste a URL and watch it work

YOUR TURN — 5 Minutes Activity!

Name ONE thing AI can do for YOU this week — share with the group!

Students

- Summarise my chapter notes
- Prep for an exam with quiz cards
- Fix my English essay instantly

Homemakers

- Plan a week of healthy meals
- Write a birthday wish message
- Find the best price for groceries

Professionals

- Draft a client follow-up email
- Summarise a long meeting report
- Build a quick Excel formula

Founders

- Write my product's tagline
- Research my top 3 competitors
- Create a 1-page investor summary

Timer: 5 Minutes — discuss with the person next to you, then share one idea!

AI is Not Just the Future — It's Your Superpower Today!

- ✓ Anyone can use AI — it's simpler than you think
 - ✓ Start FREE — ChatGPT, Gemini & Gamma cost nothing
 - ✓ Write better prompts → get 10x better results
 - ✓ No coding or tech background required
-

Be Curious. Be Confident. Be Limitless.

Claude Code — Your AI Pair Programmer

Build, debug, and ship code in your terminal — plus connect to the tools you already use

FOR DEVELOPMENT

Write, refactor & debug code from the terminal

Reads your whole repo — understands context

Runs tests, fixes errors, creates pull requests

Works with git, npm, Python, any stack

Plain-English commands → working code

```
$ claude "fix the failing test in auth.py"
```

CLAUDE CONNECTORS

Connect Claude to your favorite apps

GitHub

Manage repos, PRs, issues & code reviews

Atlassian — Jira & Confluence

Tickets, sprints & team docs in chat

Microsoft 365

Outlook, Teams, OneDrive, SharePoint

Claude plugs into your dev stack — no context switching

Result: ship code faster + automate the busywork around it

Claude Add-ins — AI Inside Your Daily Apps

Stay in the tools you already know — Claude works inside them

EXCEL

Spreadsheets with a brain

Build formulas in plain English

Analyze data, spot trends

Generate models & forecasts

Clean messy data in seconds

"Sum sales by region and chart it"

CHROME

AI in every browser tab

Summarize any webpage instantly

Draft emails & replies in Gmail

Research without copy-paste

Ask questions about what you read

"Summarize this article in 3 bullets"

POWERPOINT

Decks built for you (like this one!)

Generate slides from a prompt

Edit text, charts & layouts in chat

Add visuals & icons automatically

Restyle a whole deck in minutes

"Add a thank-you slide at the end"

Install once → AI lives where you already work

⚡ Claude Plugins — Extend What AI Can Do

Specialized AI agents built by the community — install in one click

Claude SEO

Search engine optimization assistant

```
/seo-audit example.com  
/keyword-research "ai tools"  
/meta-tags blog/post-1.html
```

 github.com/AgriciDaniel/claude-seo

Claude Blog

AI-powered blog writing workflow

```
/blog-post "AI for beginners"  
/outline topic:productivity  
/rewrite tone:friendly
```

 github.com/AgriciDaniel/claude-blog

Superpower

Power-user shortcuts for ChatGPT/Claude

```
/superpowers:brainstorm  
/superpowers:debug  
/superpowers:plan
```

 Browser extension — Chrome Web Store

Career Ops

Career & job-search co-pilot

```
/resume tailor jd.txt  
/cover-letter company:Acme  
/interview-prep role:PM
```

 github.com/santifer/career-ops
